FRIEDRICH-SCHILLER-
UNIVERSITÄT
JENA

Overview

Questions

- What can we improve in this training?

Objectives

- Reflect on the course.
- Articulate constructive feedback.

Exercise 25.1

One Up, One Down

Provide one up, one down feedback on the entire Instructor Training course. Remember:

- Say only one thing, and try not to duplicate. This gets harder for those who come later!
- Trainers should try not to respond, only record responses (e.g. in the Etherpad). This is also hard, but important!

Exercise 25.2

Post Workshop Surveys

Assessment is very important to us! Please take the remaining time to complete this [~5 minute post-workshop survey](#).

Key Points

- Feedback applies to all kinds of learning, including learning how to teach.
